As per the Reserve Bank of India guidelines, Board of each NBFC shall approve an Interest rate model that is applicable for the Company, taking in to account relevant factors such as cost of funds, margin and risk premium etc., and determine the rate of interest to be charged for loans and advances. Further, the directive states that the rate of interest and the approach for gradation of risk and the rationale for charging different rates of interest for different category of borrowers should be communicated to the borrowers / customers in the sanction letters issued to them.

The Reserve Bank of India, **Master Direction - Non-Banking Financial Company -Non Systemically Important Non-Deposit taking Company (Reserve Bank) Directions, 2016 dated 1st September 2016**, as amended from time to time (RBI Regulations), had advised the Boards of Non-Banking Financial Companies (NBFCs) to outline appropriate internal policies and procedures to define their interest rates, processing fees, and other charges. The Direction was issued as a measure against the increasing complaints the Bank received against excessive interest rates and other charges levied by NBFCs on certain loan products.

The board of directors of **RHINO FINANCE PRIVATE LIMITED** (henceforth referred to as "**Company**" or "**RFPL**") has designed a detailed interest rate policy ("**the Policy**") in accordance with the master direction issued by the Reserve bank of India (including amendments thereof) to disclose their internal guiding principles, interest rate model, rate of interest, gradations of risk and rationale for charging different rate of interest to their borrowers.
